

DICK'S SPORTING GOODS

The **Field & Stream™ Pro-Series 10x42 Binoculars** are waterproof and fogproof to ensure longevity, with multi-coated lenses and BaK-4 prisms that manage light transmissions for a remarkably clear view. The nitrogen-filled compact design keeps your line of vision clear, even in inclement weather, making the Field & Stream™ Pro-Series binoculars an essential addition to your outdoor gear.

With a reliable grip ensured by a rubber non-slip armored shell and a 100% waterproof nitrogen sealed O-ring, The **Bushnell® 7-15x25MM PowerView Binoculars** are great for on-the-water viewing. The PowerView features Bak-4 prisms for optimal viewing, and its multi-coated lenses provide maximum light transmission.

Replace that aging and unsafe ladder section to keep your tree stand in working condition with the **Field & Stream 20" Wide D-Tube Replacement Ladder Section**. The section is a compatible replacement section for any stand that uses large diameter d-tubes, and features PE-coated quick clips to help ensure a silent and stealthy hunt. The D-Tube Replacement Ladder Section is TMS approved and has a weight capacity of 500 pounds.

With the **Hunter Safety System® Ultra-Lite Safety Harness**, hunt safely without sacrificing comfort. This lightweight two pound harness is easily portable for long hunts and strong enough to guarantee your safety in the event of a fall. With padded shoulder straps and a single-buckle front that won't make you readjust position while tracking game, the Ultra-Lite Safety Harness will help you achieve your most successful season yet.

Capture the moment with the **Wildgame Innovations™ Micro Trail Camera**. A one-second ultra-fast trigger guarantees that your images are clear and sharp, while an undetectable IR flash and green swirl finish make the unit unnoticeable to passing game. The Wildgame Innovations™ Micro Trail Camera is a great accessory for any outdoor enthusiast seeking a clear and stealthy eye into the field.

Keep track game movement any time of day with the **Trophy CAM HD Aggressor Low-Glow**. This trail camera features 14 MP resolution for still images and video, and a 1920x1080p video resolution ideal for viewing on a PC or television. The Low-Glow is designed to detect movement in all light conditions, with an AutoNight setting that is specially optimized for nocturnal viewing. The Aggressor Low-Glow can be run on both battery and solar power, making it ideal for long-term deployment with minimal upkeep, and can fit a 32 GB SD card.

The **Covert® MP6 Security Safe** will keep your trail camera safe from theft, animals, and extreme weather conditions in the field. With a custom-fit design produced in 14 gauge steel and a weather-resistant powder coat finish, this safe is among the most durable and rugged camera security options available. The Covert MP6 Security Safe can be attached to any MP6 camera using a strap, a cable, lag bolts, or a padlock, and is an ideal accessory for the security-minded trail camera user.

The **GoPro® HERO4 Session** will let you capture your next adventure with clarity and ease. The ultra-compact, low-profile frame makes transportation easy, and the camera can be quickly adjusted after mounting thanks to a ball joint buckle. Filming during the evening hours is made easy with Low Light mode automatically adjusting frame rates to work best with your particular conditions. With Protune cinema-quality video capture, SuperView wide-angle technology, and unique dual-microphone recording capabilities, the HERO4 Session will bring your most extreme moments back to life.

The **Cyclops® REVO 1100 Lumen Handheld Spotlight** will keep you out of the dark on your next excursion. This spotlight features 1100 lumens of light, two hi-power luxeon LED's, and detachable red lens to provide illumination in a wide range of outdoor settings. With an ergonomical rubberized handle for a reliable grip and a vented case to prevent excessive heat buildup, the Cyclops® REVO 1100 is a great companion to any outdoor trip.
